

CENTER FOR DONATION & TRANSPLANT NEW YORK – VERMONT

Opportunities for Patient Care Providers looking for a new challenge...

The Center for Donation & Transplant at Albany Medical Center, one of 60 federally funded organ donor programs in the country, is offering challenging and fulfilling opportunities for self directed individuals with strong communication, organizational and public relations skills. Applicants with previous experience in an operating room setting are strongly encouraged to apply. Sensitivity and flexibility for this position is a must.

Perfusion Technician

Responsibilities: Present in the operating room during organ procurement for perfusion of organs, operation of perfusion equipment, safe packaging and transportation of organs. Travel and on-call required.

Requirements: HS diploma required, AA/BS preferred. Organ procurement and/or operating room experience including on-call is preferred. The qualified candidate must be able to drive company vehicles and be physically able to lift 75-100 pounds and work for extended hours. Data entry and computer experience are also preferred.

Join an organization committed to improving the quality of life for others.
Excellent salary and benefits including generous leave time, health and dental.
